France/Netherlands

Eu, REE, In

Recently published work

Work in progress

- Solid solution partitioning and speciation of Eu in the ternary system Eu- clay - humic acid: speciation measurements (voltammetry/Donnan membrane technique (DMT)) and geochemical modelling .
- Generic NICA-Donnan model parameters for REE binding to humic- and fulvic acids based on literature data
- Modelling of REE binding to metal (Al/Fe)-oxides with the CD-MUSIC model (literature data)
- In binding to humic acid and NICA-Donnan modelling
