Technology-Critical Elements (TCEs)

Ga, Ge, In, Nb, Ta, Te, Tl, Pt group elements (Ir, Os, Pd, Pt, Rh, Ru) and most of the rare earth elements (Ce, Dy, Er, Eu, Gd, La, Lu, Nd, Pr, Sm, Tb, Y, Yb).

Main Objective

Creation of a network of scientists working and interested on trace elements critical for the development of new technologies with the aim of defining the current state of knowledge and proposing priority research lines.

Working Groups

WG 1: Analysis and Inter-Calibration
WG 2: Environmental Impact and Cycling
WG 3: Human Exposure and (Eco)Toxicology
WG 4: Training and Capacity Building

Action Chair: Antonio Cobelo-García
IIM-CSIC, Vigo, Spain
